

It has come to my attention that there is a possibility that you will remove K-Love from local listening area. I pray that this does not happen. K-Love gives those of us in the community a station of comforting and inspiring music without commercials. Without K-Love on the air I will not be listening to the radio I will go back to listening to cd's. Service provided by K-Love gives a choice - by displacing this station with a LPFM broadcaster providing other programming it appears you are interfering with the communities choice for inspiring and life saving programs.
